

Historical Abstracts of Assessment and Levies

Each year Montrose County publishes an Abstract of Assessment and Levies. The document summarizes valuations of property by classification, lists mill levies and tax revenues by taxing entity, provides an itemized breakdown of mill levies by tax area, and illustrates the allocation of property valuations and tax dollars. Recent versions of the publication also state the property tax due dates and briefly explain how to calculate property taxes. The general purpose of the document is to inform the public regarding countywide property taxes.

The 2006-2017 Abstracts of Assessment and Levies are available online through the Assessor’s Office website. Historical abstracts have been recorded with the Montrose County Clerk and Recorder’s Office. The following table references the reception numbers for the historical abstracts. A copy of the original document can be obtained by providing the appropriate reception number to the recording office. The standard recorded document fee schedule will apply. The electronic document can be viewed in the Clerk and Recorder’s Office free of charge.

The recorded documents date back to 1905, but unfortunately are only partially complete. Documents from the following years are missing or unavailable: 1907, 1908, 1909, 1910, 1911, 1912, and 1951. If you have additional questions, please contact the Assessor’s Office at (970) 249-3753.
