

## Historical Abstracts of Assessment and Levies

Each year Montrose County publishes an Abstract of Assessment and Levies. This document summarizes valuations of property by classification, lists mill levies and tax revenues by taxing entity, provides an itemized breakdown of mill levies by tax area, and illustrates the allocation of property valuations and tax revenue. More recent versions of the publication also provide property tax due dates and briefly explain how to calculate property taxes. The general purpose of this document is to inform the public regarding countywide property valuations/tax revenue by year.

The 2006-2021 Abstracts of Assessment and Levies are available digitally online through the Montrose County Assessor's Office website. Historical abstracts have been recorded with the Montrose County Clerk and Recorder's Office. The following table references the reception numbers for these historical abstracts. A copy of the original document can be obtained by providing the appropriate reception number to the Montrose County Recording Office. Their phone number is (970) 249-3362, Ext.2. The standard fee schedule for acquiring recorded documents will apply.

The recorded documents date back to 1905, but unfortunately they are incomplete. Abstracts from the following years are not available: 1907, 1908, 1909, 1910, 1911, 1912, and 1951. If you have additional questions, please contact the Montrose County Assessor's Office at (970) 249-3753.

Year	Reception #	Year	Reception #	Year	Reception #	Year	Reception #
1905	806988	1935	807031	1965	807076	1995	807130
